Hi Hi Hi, for those who don't know I launched a web site in December offering free Live Download EPs of local artists. You simply download the mp3s, burn them to cd.. print out the artwork on card and build a sleeve for the release. It's all free and we're trying to get out roughly one release per month. So far you can get tracks by George Clarke, Meteor Street & Gamble Gamble... an EP by one man post rock outfit THEO is due out in a few weeks.
